Dever Architects is proud to be working with long-term client Madison Marquette and Glen Eagle Square on the design of the Glen Eagle Square Memorial Plaza.

Construction on the plaza began in September and Dever Architects would like to invite anyone interested to attend the flag raising ceremony at the Glen Eagle Square Memorial Plaza in Glen Mills, PA.

The plaza is intended to be a spot of rest and quiet amid the bustle and busyness of Glen Eagle Square. The yardarm will feature the United States' flag as well as local flags and Adirondack chairs will be installed to provide a moment's rest.

Now, almost complete, Glen Eagle Square has decided to celebrate their newest addition with the flag raising ceremony, which will recognize local veterans. The event will take place on December 1.

Dever Architects would like to thank all veterans for their sacrifices, service, and dedication to our country and our community.

Happy Veterans Day, from Dever Architects
